

# MAGNET1C H1LLS

## osu!gaming CTF 2024

NAME	sanity-check-1
POINTS	103
FLAG	osu{welc0me_2_osu!!}

**DESCRIPTION:** My first map in 2024: Gawr Gura - Kyoufuu All Back

Mapped for osu!gaming CTF 2024. Please play/watch the top diff with video on!

To osu! players: CTF is a competition where participants attempt to find text strings, called "flags", which are secretly hidden in purposefully-vulnerable programs or websites. The strings can be in plain text, images, encoded/encrypted, etc.

In sanity-check-1, checkout map metadata and submit the flag you found. Remember flag is always in format osu{...} unless otherwise specified.

**SOLUTION:** The simplest and fastest flag in our-ctf life. Open the map through the editing menu and go to song setup. Next, go to Tags and take our first flag!
